CONTENTS

Acknowledgments **4**

Introduction **5**
The Monkey Programming Language & Interpreter . . . 6
Why Go? . . . 8
How to Use this Book . . . 9

1 Lexing **10**
1.1 - Lexical Analysis . . . 10
1.2 - Defining Our Tokens . . . 11
1.3 - The Lexer . . . 13
1.4 - Extending our Token Set and Lexer . . . 21
1.5 - Start of a REPL . . . 26

2 Parsing **29**
2.1 - Parsers . . . 29
2.2 - Why not a parser generator? . . . 31
2.3 - Writing a Parser for the Monkey Programming Language . . . 32
2.4 - Parser's first steps: parsing let statements . . . 33
2.5 - Parsing Return Statements . . . 45
2.6 - Parsing Expressions . . . 47
Expressions in Monkey . . . 48
Top Down Operator Precedence (or: Pratt Parsing) . . . 49
Terminology . . . 49
Preparing the AST . . . 50
Implementing the Pratt Parser . . . 53
Identifiers . . . 54
Integer Literals . . . 57
Prefix Operators . . . 60
Infix Operators . . . 64
2.7 - How Pratt Parsing Works . . . 70
2.8 - Extending the Parser . . . 78
Boolean Literals . . . 80
Grouped Expressions . . . 83
If Expressions . . . 85
Function Literals . . . 90
Call Expressions . . . 94
Removing TODOs . . . 98
2.9 - Read-Parse-Print-Loop . . . 101

3 Evaluation **104**

3.1 - Giving Meaning to Symbols . . . 104
3.2 - Strategies of Evaluation . . . 105
3.3 - A Tree-Walking Interpreter . . . 106
3.4 - Representing Objects . . . 107
Foundation of our Object System . . . 109
Integers . . . 109
Booleans . . . 110
Null . . . 110
3.5 - Evaluating Expressions . . . 111
Integer Literals . . . 111
Completing the REPL . . . 114
Boolean Literals . . . 115
Null . . . 117
Prefix Expressions . . . 117
Infix Expressions . . . 120
3.6 - Conditionals . . . 125
3.7 - Return Statements . . . 128
3.8 - Abort! Abort! There's been a mistake!, or: Error Handling . . . 132
3.9 - Bindings & The Environment . . . 137
3.10 - Functions & Function Calls . . . 142
3.11 - Who's taking the trash out? . . . 151

4 Extending the Interpreter **154**
4.1 - Data Types & Functions . . . 154
4.2 - Strings . . . 154
Supporting Strings in our Lexer . . . 155
Parsing Strings . . . 157
Evaluating Strings . . . 158
String Concatenation . . . 160
4.3 - Built-in Functions . . . 162
len . . . 162
4.4 - Array . . . 166
Supporting Arrays in our Lexer . . . 167
Parsing Array Literals . . . 168
Parsing Index Operator Expressions . . . 171
Evaluating Array Literals . . . 174
Evaluating Index Operator Expressions . . . 176
Adding Built-in Functions for Arrays . . . 179
Test-Driving Arrays . . . 182
4.5 - Hashes . . . 183
Lexing Hash Literals . . . 184
Parsing Hash Literals . . . 186
Hashing Objects . . . 190
Evaluating Hash Literals . . . 195
Evaluating Index Expressions With Hashes . . . 197
4.6 - The Grand Finale . . . 200

Going Further **202**
The Lost Chapter . . . 202
Writing A Compiler In Go . . . 202

Resources **204**

Feedback **206**

Changelog **207**
